

COST

COST Action no. TU0903

Action Title: Methods and tools for supporting the use, calibration and validation of traffic simulation models (MULTITUDE)

**WG2 workshop on “modelling uncertainties” + WG3 workshop on “OD Estimation benchmark”
+ Management Committee meeting**

Venue Chania, Crete, Greece from 30 to 31 May, 2013

Day 1 (May 30) – Scientific Workshops

10:30 - 11:30

Uncertainty in traffic simulation modelling (Part 1). What is available? Which future?

(Possible topics: uncertainty in the modelling structure, system vs. model randomness, multiple replications vs. time series analysis, disaggregate vs. aggregate calibration, UQ of outputs, scenarios comparison)

Short presentations

Chair: Markos Papageorgiou

Coffee break

11:45- 13:30

Uncertainty in traffic simulation modelling (Part 2)

Open discussion

Chair: Markos Papageorgiou

Lunch break

15:00 - 17:00

WG3 workshop on OD matrix estimation (Part 1)

Hands on

Chair: Constantinos Antoniou

Coffee break

17:30 - 18:30

WG3 workshop on OD matrix estimation (Part 2)

Hands on

Chair: Constantinos Antoniou

20:00

Dinner

Day 2 (May 31) – Management Committee meeting (Detailed Agenda in a different file)

9:30 - 10:30	A case for traffic guidelines: material produced, dissemination strategy, next steps <i>Open discussion</i>	<i>Chair: Mark Brackstone</i>
10:30 – 11:00	Final event planning <i>Open discussion</i>	<i>Chair: Vincenzo Punzo</i>
11:00 – 11:30	Special Issue on IEEE Transactions on ITS: contribution planning <i>Open discussion</i>	<i>Chair: Mark Brackstone</i>

Coffee break

11:30 - 13:00	Management Committee Meeting <i>Chair: Vincenzo Punzo</i>
